# Mechanisms and Handsets

**Dual Tilt  
in Space**

The smooth dual-operated chair allows the backrest and footrest to recline unity at a fixed angle. In addition to this, the tilt motion elevates your feet above your hips for added comfort.

**Deluxe**

This mechanism has two individual motors. One motor powers the back movement, and the other powers the leg motion. These independent movements allow you to elevate the footrest whilst still in a seated upright position.

**Premier Rise  
and Recline**

This mechanism has four individual motors. These motors work independently within the headrest, backrest, leg rest and adjustable lumbar with an additional 2" footrest extension.

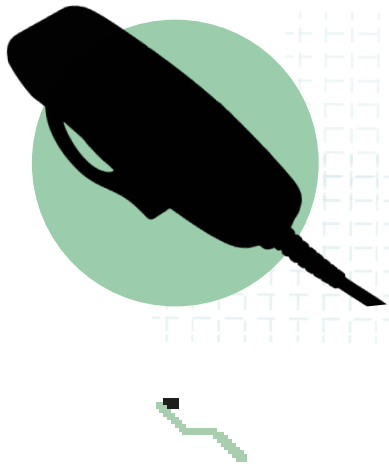

**\*Exclusive to Sitting Pretty**

**Premier Plus**

This mechanism gives you everything you need from the Premier mechanism, and more! It has four individual motors that work independently within the headrest, backrest, leg rest and adjustable lumbar with an additional 2" footrest extension. However, the Premier Plus mechanism simultaneous tilts in space movement, two programmable positions, as well as built-in heat technology.

**\*Exclusive to Sitting Pretty**

## Single Motor Deluxe

This mechanism provides a wonderfully smooth, silent recline unlike any other “single” motor chair. It comes with higher foot elevation, as well as two pre-set positions for instant comfort at a push of a button.

## Single Motor Premier

The smooth, silent dual-operated chair which is good for circulation has independent back and leg movement. The tilt motion elevates your feet above your hips. The added feature of two preset positions allows you to enjoy your favourite posture at the push of a button.

## Manual

Our manual recliners are simple and easy to operate. A gentle pull on the clip releases the footplate to elevate your feet into a comfortable position. You can gently push back on the arms of the chair to further recline the back rest to a near horizontal position.

## Zero Wall

The Zero wall mechanism is ideal for smaller rooms. Unlike the other mechanisms, the reclining position comes from the chair moving forward on its internal track, offering a space saving alternative. This mechanism allows the chair to be situated just 5 inches from the wall.

Image features the Dorchester Light Grey Premier mechanism chair and Zero Wall sofa.

## *Designer Fabrics*

**crestleather**

Why not try our real and faux leather range for a timeless look that never goes out of style.

Not only does leather leave the chair looking great it is also more practical than a fabric alternative, being water resistant and easy to clean.

# Complete the Suite Queen Anne

Why not compliment your rise and recline chair with a touch of added elegance? Introducing our Queen Anne fixed furniture, created with comfort in mind, with stunning curved cabriole legs, this complimentary furniture is the perfect addition to complete your suite.

**Fixed Chair**

**Pouffe**

**Two Seater**

\*Available on all ranges except the Camberley range.

# Complete the Suite Fixed Furniture

Compliment your rise and recline chair with our fixed furniture to complete your suite. Whether it's a 2, 2.5 or 3-seater sofa you're after or even just a matching chair, our fixed furniture range can cater to your interior needs without compromising your comfort.
